INSTITUTE PROCEEDINGS

The Best Teachers' Institute Ever
Held in Washington County
Prof. Colvin Elected to
Conduct the Institute
in 1911.

The most successful institute ever held in Washington county closed Friday, the 12th inst., and the teachers returned to resume their work, filled with such inspiration, such hope, and such enthusiasm as was never before felt by them. The institute was conducted by Prof. Geo. Colvin, Superintendent of the Springfield Graded High School, and although it was the first institute work ever done by him, he has proven himself in this, as in all his undertakings, second to none, but equal to if not better than the best. For the past five or six years he has not only made the psychology of the child-mind and the best methods of education his study but the conditions and needs of the youth and teachers of Kentucky. When he stands before the teachers, holding up to them high and noble ideals, he at once gets from them a ready response, for they know it not only comes from a friend who is vitally interested, but from one who understands—that this is no empty, high sounding theories, but theories tried and true, learned at that best of all schools, "Experience."

While the able and ready response of all who were called upon did much toward making this institute the best, this was due to the confidence of the teachers in their instructor—the knowledge that they stood before a critic, but a friend who was willing and anxious to help them. From Monday morning until 3 o'clock Friday afternoon, not a moment passed but was full of interest and enthusiasm; not an address made but was met with the best of thoughts.

What Prof. Colvin and Superintendent Bush have done towards the uplifting of the cause of education in Washington county the past five or six years, can only be appreciated to the fullest extent by those who come in contact with the teachers from year to year. Washington county has been considered far behind in education, but she is rapidly climbing, and with such improvement in the future as has been witnessed in the past, she will soon rank among the first. The teachers and patrons of the county should congratulate themselves upon having two such able and earnest men as leaders in education. That the teachers do congratulate themselves was proven by their enthusiastic applause when Prof. Colvin was nominated as instructor for 1911, and the unanimous vote by which he was elected. Mr. Bush has always taken great pains to get the very best talent from the State to conduct the institute, and this time he found it at home.

The following resolutions were adopted by the teachers of Washington county:

WHEREAS, We, the members of this Institute are able to congratulate ourselves on the awakening interest that has been manifested by the earnest and efficient efforts of each teacher, which marks an epoch in the educational history of Washington county and the State.

2. We also cordially thank and extend our heartfelt appreciation to our worthy Superintendent and Instructor, who have labored so earnestly through the entire week to make this the most inspiring institute ever recorded in the annals of the county. Further to express our appreciation to Prof. Harmon and other visitors who have added so much to its success.

3. We also thank the music committee, for the delightful program rendered and especially the selections rendered by the little girls, showing the influence of a "Little Child," even on a teacher.

4. We are also indebted to the officers of the Baptist church and its estimable pastor for the services rendered us.

5. We also heartily endorse the sentiment for a higher standard for teachers, with a proportional increase in salary, making \$40 per month the minimum, with a lengthening of term from six to eight months, and that no certificate should be issued below the Second Class. It is the unanimous opinion of the teachers of this Institute that no measure contains more justice or would do more to develop our profession than one insuring to the teachers that when

their best working days are given to the "Cause," they shall not become objects of charity by being protected in their old days.

7. We unanimously elect Prof. Colvin, who has proven himself a most able and earnest instructor, to conduct our Institute in 1911.

JUDGE SAUFLEY DIES SUDDENLY

One of Best Known Jurists in
Kentucky Dies of Heart Failure
at Stanford.

Stanford, Ky., Aug. 12.—Judge Micah Chrisman Saufley, presiding Judge in the Thirteenth Judicial district, died suddenly here this morning of heart failure. He was found dead in his yard, where he had gone to feed his chickens after breakfast.

He had been in good health lately, but since the death of his son, George B. Saufley last March, the jurist had often shown the effect of a broken heart for he idolized his son.

Judge Saufley was eighty-eight years of age. He was born in Monticello, Wayne County, entered the Confederate army when but nineteen years of age, and served as First Lieutenant under Gen. John H. Morgan, being captured and imprisoned at Johnson's Island.

The war over, he came to Lincoln County, and soon afterward married Miss Sallie Rowan, of McMinnville, Tenn. whom he had met during the war. She was the daughter of a distinguished lawyer of that State, S. D. Rowan, and a great-granddaughter of Gov. Casswell, the first Governor of North Carolina.

Judge Saufley prepared for the bar, his life work, at the Louisville Law School, and quickly forged to the front of his profession. He was an uncompromising Democrat of the old school.

MODERNIZE YOUR IDEAS

Don't be a Fossil or a Mossback
Get in Touch With the Progressive Spirit of the Age.

The best way to build up a city is for each and every man in it not to rest and tear down. Whenever a man is doing well in the town don't try to tear him down. All the residents of a town are partners not opponents. In all likelihood the more business done by your rival the more you will do. And always welcome the progressive stranger—he will be likely to bring into your community sound progressive ideas and help to dig you out of the stagnant rut. If you treat him courteously he will usually prove to be a gentleman. Every business man who treats his customer honestly, courteously and fairly will get his share, and the more business that can be secured by united effort the better it will be for all. When a town ceases to grow it commences to die, and the more people try to kill each other off in their business and good name, the more rapidly will utter ruin come to all. Stand together for the advancement of your city. If a man shows ability to prosper do not pull him back through jealousy or weight him down with cold indifference.

RELIGION IN CANAL ZONE

Uncle Sam Owns Twenty-Six of
Thirty-Nine Edifices in the
Panama Canal Zone.

Church and State march hand in hand in the Panama Canal Zone. The church is fostered by the "state," and much of its expense is defrayed. The "state" is exemplified in the Canal Zone profiting for its part in the improved moral tone of its citizens. The Canal Zone now boasts of thirty-nine churches, according to the latest issue of the canal record. Of these, twenty-six are owned by the Canal Commission. Of the remaining thirteen, eleven are upon land that is owned by the United States. Of the two that are without connection with the "state," one is the Wesleyan church at Gatun, and the other is

CLOSE "WET" VICTORY

Election Declared to Have Been
Illegal and a Contest Ordered
—Majority Only Thirteen

By a majority of thirteen the voters of this city yesterday at the polls expressed themselves as against local option and in favor of a return to the licensed saloon. However, a contest will be filed at once by the Anti-Saloon League, and it is probable that it will be at least several months before intoxicating liquors can be legally sold in Lebanon. It is believed that the contest which the Anti-Saloon League will file will be upheld by the courts and that the election yesterday will be set aside.

The grounds on which the suit will be based are that the election was illegally called. Under the Kentucky statutes it is compulsory for a petition for an election to be filed at one term of court and the order calling the election made at the next term. This was not done. The petition for the election yesterday was filed at the regular monthly term of county court in June, and the order calling the election immediately after the term. The question is one that has been passed on by the Court of Appeals, and several attorneys of the local bar when asked about the matter stated that yesterday's election was clearly illegal, and the courts were certain to so hold.

The election passed off quietly. The day was an ideal one so far as the weather was concerned, and no disorder of consequence was reported although the streets were alive with people throughout the day. It is believed that a conservative estimate of the number of people on the streets in the forenoon would be not less than ten thousand. The vast majority of these were drawn here by the circus and apparently were little concerned in the outcome of the election. When the result became known in the afternoon there was rejoicing by those who favored the return of the saloon. This was kept up until late in the night, and some of the enthusiasm was in evidence at the circus performance in the evening. For a crowd of such unusual proportions the order that prevailed was excellent, and Chief of Police Yowell and a half dozen extra men appointed by Mayor C. C. Spaulding, had little difficulty in managing the throng.

The campaign just passed was waged along different lines from that of three years ago, and the bitterness that characterized the former election was not apparent. Both sides, however, were organized and made an earnest fight for victory.—Lebanon Enterprise.

DECIDE FOR THE "WETS."
Lebanon, Ky., August 16.—The Board of Election Commissioners met here yesterday afternoon for the purpose of examining and canvassing the returns of the local option election held on August 11. Twelve "dry" citizens objected to an issuance of a certificate of election to those in favor of licensed and open saloons. The Election Commissioners, however, found that the "wets" had a majority of thirteen and unanimously executed a certificate of election accordingly.

The general opinion is that a large majority of the prohibitionists are not in favor of a contest, and some of the leaders say that the election should stand as the vote was cast.

the Episcopal church at Bas Obispo.

A number of chaplains are in the employ of the Canal Commission. They are of various denominations and their duties practically conform to those of pastors in the States. Some, however, have "calls" that are spared their brethren "oak home," a notable instance being that of the commission chaplain of the Roman Catholic church at Empire, who has to make a weekly visit to the leper settlement at Palo Seco.

The commission likes to lend every encouragement to church work in the zone, believing that it makes for the stability of the canal and good order in the villages within its jurisdiction.

THE VENOM OF THE GRAFTER

A Perfectly True and Scathing
Expose of This Degenerate
Brand of the Genus Homo.

He who engages in a fight against graft may expect always to incur the bitter enmity of the grafters. We use the word "grafter" here in its broadest sense, as including the professional lobbyist. The man who sells his talent to a corrupt interest to do its dirty work is in the same class with the crooked public official whom he pays to prostitute his office. Indeed of the two the former is often the more culpable, as the mitigating circumstance of poverty sometimes lessens the crime of the latter in the estimation of the public.

No matter in what form graft manifests itself, however, it is invariably accompanied by the most intense hatred of those who interfere with it. The grafter is a peculiar specimen of the genus homo. By some system of distorted philosophy he appears to have persuaded himself that his business is legitimate. This is peculiarly true of the type known as the professional lobbyist. In this state of mind his wrath against the honest man who seeks to expose him is instantly aroused. And it is a consuming wrath; the malignity of the anarchist or the "black hand" has but little advantage over its intensity.

This hatred manifests itself in various ways. Sometimes through fear of the grafter's nose it stops short of murder, and, for a time at least, contents itself with opposition to the reformer's business, or, if he is a public man, with an effort to thwart his ambitions, as in the case of Pook, of Missouri. We saw it shoot down Mayor Gaynor the other day. Gaynor has been cleaning out the grafters in New York City, and while this particular would-be assassin was not charged with grafting, all the cir-

cumstances indicate that it was not an outgrowth of the general feeling of enmity aroused by the Mayor's efforts to stop graft. We also saw it in an effort to assassinate the fearless prosecutor, Henny, of San Francisco.

And these conditions are not confined to St. Louis, San Francisco and New York. They exist all over the country, in every State of the Union; wherever an honest man, whether he be public official or private citizen, raises his hand in protest against the professional lobbyist or the plain grafter, the fight is on. It has been more in evidence in recent years for the simple reason that grafters, of all grades and classes, have grown more numerous and more bold, arousing honest men to more vigorous effort to thwart their claims.—Kentucky State Journal.

THE WASHINGTON COUNTY FAIR

Begins a Week From To-Day and
Continues Four Days—Every
Preparation Being Made.

We again wish to call the attention of our readers to the fact that the Washington County Fair begins a week from to-day and continues four days, during which time the highest class of sport and entertainment will be furnished those who attend. Those who do not attend will have none but themselves to blame, for the Fair is not given for any special class, but for the people as a whole, and like any other institution—business, social or political—it requires the support of the people to succeed. It is the best medium to advertise the resources of the county, aside from being a social gathering, a place where for a few days one can greet one's friends and acquaintances and in pleasant social intercourse lay aside the cares of business. Let everyone make an effort to attend the Fair as frequently as possible.

VICTIM OF AN ASSASSIN

Mayor Gaynor, of New York Shot
by Jas. J. Gallagher, as he
Was Leaving for Europe.

New York, August 10.—Mayor Wm. J. Gaynor, of New York, was shot in the neck and badly wounded Tuesday morning by James J. Gallagher, a discharged employe of the City Dock Department. The shooting took place on the deck of the steamer, Kaiser Wilhelm Der Grosse, lying at her pier in Hoboken, N. J., on which the Mayor was on the point of sailing for a trip abroad. Gallagher was at once arrested. The bullet entered just below the right ear, passing through the mastoid and traveling from right to left and slightly downward. He was immediately removed to St. Mary's hospital, Hoboken. Gallagher had nursed a grievance against the Mayor, as he exclaimed after the shooting, that he had deprived him of his "bread and butter."

The would-be assassin was mobbed and his life was threatened before the police could lodge him in jail. While the wound was considered dangerous at first, owing to the skillful medical attention the distinguished patient received, Mayor Gaynor is now out of danger and rapidly recovering.

Course in Agriculture.

The Western Kentucky State Normal School offers a practical course in Elementary Agriculture. Demonstrations and actual work done on school farm. Teachers will have an opportunity to prepare for teaching the subject. Great opportunities offered young men who expect to make farming a life work. Course begins Sept. 6, 1910. Write for information. Address H. H. Cherry, President, Bowling Green, Kentucky.

The only way to stop it is to impose a penalty that is weighty to them than the excitement of railroad speed on an open road.

Americans are winning in fields where intellectual ability counts, as well as in more materialistic lines. The winner is the first American to whom the prize has been given.

Everybody will rejoice that the forest fires which threatened destruction to the big trees of Sequoia National park in California, have been brought under control and that the danger is past for the present. The big trees are unique, and once burned could never be replaced. They are among the most interesting of the natural curiosities of the United States, and it is to be hoped may be preserved for hundreds of years in addition to the long life they have already enjoyed.

The little submarine boat Salmon, built for the United States Navy, seems to have been a success. No doubt that she is seaworthy. But she stood the test and has demonstrated that craft of this kind may be operated with ease on the surface of the water as well as below. Her exploit adds another to the list of American submarines.

KENTUCKY GLEANINGS

WHAT IS GOING ON IN THE DIFFERENT SECTIONS OF THE COMMONWEALTH

SOON TO BE BUILT.

Prison Commission Plans Hospital for 'Frankfort Penitentiary.

Frankfort, Ky.—Money which was appropriated by the legislature at the session of 1906 for improvements at the Frankfort penitentiary, but never expended, is to be used by the prison commission for the erection of a modern hospital and also for the construction of a large auditorium, in which religious and other services can be held.

The money was not used because it was not sufficient to do all that the prison commission thought necessary, and they waited, hoping that an appropriation would be made sufficient to build a new cellhouse and make other greatly-needed improvements.

They did not want to do a part of the improving, and then have to make changes in order to accommodate the additional buildings that were regarded as necessary.

The appropriation which will now be expended will total \$31,000, and bids may be received at the September meeting of the prison commission for the erection of the hospital and for making other improvements.

The rooms over the present dining room, which are used as a hospital, will be converted into one large room with a small stage at one end. It will be furnished with chairs, and will be large enough to seat all the male prisoners now in the penitentiary—about 1,500.

It is planned to have religious services in this hall, and also lectures on sanitation. The convicts will be shown and taught how best to take care of their health, and will see illustrated lectures on various interesting subjects.

The Rev. Walter Vreeland will have the largest congregations that ever heard any other chaplain in that penitentiary, for he will be able to gather them in the prison before he can at one time, something that was not possible before, on account of lack of space.

GRAVING FOR BOILED WATER
Obesees Kentucky Doctor, and He Carries His Bottle With Him.

At a recent meeting of the Lexington board of health, when the subject of intestinal troubles was under discussion, Dr. J. W. Pryor made the statement that during the months of June, July, August and September he drinks no water that has not been boiled.

"After the water has been boiled," he said, "it is poured into gallon bottles, the stopper put lightly in, and it is set aside to cool. As needed the bottles are transferred to the refrigerator, and when chilled by the ice the drink is refreshing and germ-free."

"For the past 16 years all of the water that has passed my lips has been boiled," said Dr. J. C. Carrick, president of the board. "It has to be boiled, or I could not drink it."

"When I go out on a journey I take a bottle of boiled water with me. I have had fellow-passengers, upon seeing me take a drink from my water bottle, inquire where I came from and why I carried water."

"I have no doubt many of them thought me a little bit off in the upper story and attributed the burden of my precaution, but I have as comparison for the little trouble it takes to boil the water good bodily and mental health, and that is sufficient."

"I recommend to my patients that they drink boiled water as I do all of the time. If more of them would take my advice and follow my example in this matter my visits to them would be fewer."

FARMERS' INSTITUTE
Will Meet in Paris Next Week—In Session for Two Days.

Paris, Ky.—The Bourbon County Farmers' Institute will be held here on August 17. The institute will convene at the courthouse, and will be in session two days. In addition to a number of well-known local speakers, John G. Blair and W. D. Nichols, of the state department of agriculture, will deliver addresses.

Some of the subjects to be discussed cover a wide latitude. J. W. Eber-shaker, state organizer, was here and assisted in making the final arrangements for what will be the most successful county meeting ever held.

WATERED MILK
Urged as Argument for Investigation of Dairies.

Frankfort, Ky.—At a meeting of the city council, Mayor Polsgrove urged the city council to take action for the investigation of the slaughter houses and dairies of this county and city.

He said a report from R. M. Allen, head of the bureau of dairy work in this state, showed that some of the milk sold contained from 18 per cent to 40 per cent of added water.

275 FEET ABOVE STREET.
Workman Dangled From Overturned Scaffold on Cathedral Spire Until Rescued.

Louisville, Ky.—Four full minutes Fred Marty, a workman, dangled 275 feet above the sidewalk on Fifth avenue when a scaffold suspended from the Cathedral of the Assumption, upon which he was working, turned turtle and the man managed to grip one of the crossbars of the scaffold. His cries attracted the attention of W. E. Callahan, the foreman, who was inside of the spire, and he climbed out on the ledge and righted the scaffold at a moment when the strength of the imperiled man was fast ebbing. He then assisted him to safety.

KENTUCKY RACING NEXT MONTH.

Lexington Is First to Ask for Dates. Beginning September 19.

Lexington.—It is very generally understood that it is planned that the season shall open here September 19. Secretary Garret D. Wilson said that "it is the sentiment of the directors of the Kentucky association that a fall meeting of six days, beginning on that date, be given at the local track. The duties of the state racing commission require that all applications for dates must be made in writing to the secretary of the commission at least 20 days prior to the first day of the proposed meeting."

It is presumed that Louisville will follow Lexington and that the season in Kentucky will end at Latonia some time in November, probably about the 19th. If this schedule is followed there will be nine weeks of racing before the movement to the winter tracks in the south begins.

With no racing in New York state after September 1 and none in Canada after October 1, it is argued by thinking men of the turf here that Kentucky's opportunity the coming fall will be the greatest in its history.

The Commonwealth

Lexington.—Mrs. Amanda Parris, of Cleveland, O., the guest of Mr. and Mrs. R. L. Baker, of this city, en route to Paris in an automobile, fell into the basement of the Bourbon garage and broke both arms at the wrists.

Caroline.—The wreck of a railroad of watermelons, which blocked traffic on the main line of the Louisville & Nashville railroad, between Paris and Cincinnati, caused the fast passenger and mail train to be delayed by one hour of Caroline and Mayville, causing about twelve passenger trains to arrive and depart from here.

August.—At Milford, this county, C. Purcell, aged 18, was shot and killed with a revolver that he had purchased. He asked Harrison Reed to see if it was in working order. The loaded gun, he knew, was not in working order, pulled the trigger and the bullet struck Purcell. Reed had to be restrained from committing suicide after he learned the result of the accident.

Mt. Sterling.—State Chairman J. R. Prewitt is in receipt of a letter from John W. Vreeland, member of the Democratic state central committee from the Fifth Congressional district, announcing his resignation. The resignation will be accepted. Vreeland has served as member of the state executive and central committees for 14 years. He has accepted public office in Louisville and can not hold both places.

Cynthiana.—James H. Dimmitt, aged 66, a confederate veteran, died at his home here after a lingering illness of eight months. The deceased was from a prominent family, and was born in Bourbon county. His wife, Mrs. Eva Perrin, and one brother, Richard Dimmitt, survives. He was a member of Company C, Fifth Kentucky regiment, in the confederate army. He was a prisoner at Camp Chase, near Cincinnati, and in all two years in prison.

Somerset.—At a mass meeting of the citizens of Somerset the Corbin-Somerset-Cumberland Construction Co. is organized for the purpose of securing the right of way and making a locating survey for a proposed railroad from Corbin, Ky., to Hopkinsville, Ky., via Somerset and the Cumberland river. Capital has been assured, and the building of the road will begin upon the completion of the right of way and survey. It will traverse the richest coal and timber territory in Kentucky.

Paris, Ky.—Herman Margolen, of this city, announces the engagement of his daughter, Miss Esther Margolen, to George Coleman Schwartz, of Portland, Me., the wedding to take place in this city the latter part of this month.

Mr. and Mrs. Henry Schuler, of Millersburg, announce the marriage of their daughter, Miss Mary Anna Schuler, to Varnadore Grinnell, of Cynthiana. The wedding will take place Wednesday afternoon, August 16, at the home of the bride-elect's parents in Millersburg.

Elizabeth.—Jesse Castlesman died from the effects of a fall from the roof of the graded school building at Glendale.

Lexington.—Henry Martin, clerk of the Rock Creek Baptist church, in Whitley county, was killed in the structure, according to dispatches received here. He was shot in the back as the result of a business quarrel, it is said. The church is the one in which Rev. Isaac Vanover and Rev. Isaac Perry recently fought during an ecclesiastical trial, Vanover being killed.

VEILS FOR SUMMER

By JULIA BOTTOMLEY.

The veil for summer is the latest of creations, falling about the brim of hats and over faces and floating free to the summer winds. Dots, set on, have been shown less favor than lace patterns on a set ground or large meshed nets with figures woven in.

These veils which are not of the floating kind are of the latter variety and are worn with wide-brimmed hats and drawn to the back and under the collar. It requires some care to pin and adjust them correctly, and getting under them is a matter that consumes time. They are very neat in appearance, however, and very becoming. Hence their wearers are willing to put in the necessary time to adjust and readjust them.

The lace veils show light pattern having a scroll border and bands and birds or even tiny chandeliers woven in. The heavy figures proved too un-

becoming to meet with anything like general favor. They were, in fact, figuring Black chintilly and white wash nets with scroll borders and the most popular of floating veils, and large-meshed nets hold first place in the others.

The net veils just described have been adopted for mourning wear as well as for the summer. They are bordered with bands of crape or with silk grenadine or other mourning fabric. Rows of grosgrain ribbon, graduated in width or otherwise, are also used as a border finish. Veils of this kind hang straight from the hat brim and reach below the bust line.

A wide-brimmed sailor for general wear, with a white net veil, is about as satisfactory as any hat can be.

PARISIAN MODEL

BLOUSES THAT ARE POPULAR

Very Attractive and Becoming Designs Are Being Introduced This Season.

Overblouse effects are extremely popular this summer, and some very attractive and becoming designs of this order are being introduced. The waist may, of course, be worn with any preferred skirt of harmonizing design, either attached in semi-princess style or adjusted separately.

A French lining forms the basis of many of the waists, serving as a foundation for the underbody, which will prove the most effective if made of allover lace, net or tucking, the standard color being of the same material. The waist proper is tucked from both shoulder seams in front and back, the front tucks terminating either at bust depth or at the waistline as preferred. At the neck edge it is cut in circular fashion, with a deeply pointed opening at the center front.

The sleeve caps may be made with or without an opening to correspond. Two sleeve models are given for the underbody. The one-seam fitted sleeves may be made in full or shorter length while the puff sleeves are in elbow length only.

The present season is very prolific in pretty fabrics that would be entirely appropriate for the purpose. Silk, cashmere, albatross, messaline, shantung, foulard and chiffon pongee are advantageously used.

Needlework for Gifts.

Pretty work to keep on hand for summer and to get ready for the next gift occasion is the shirtwaist frill of sheer handkerchief linen and its buttons made to match.

The scalloped edge of a graduated strip for the frill is done in china-blue embroidery cotton and a set of six buttons for the front box plait of the shirtwaist completes the gift.

Cover button molds with china-blue linen worked with white cotton. These, two mounted upon tissue paper (after the frill is pressed into place) and boxed, make a most attractive little gift and represent hours well spent.

Red Leather Belts.

A pretty and odd finish is given to the belt of many a Russian blouse by a touch of red leather. Sometimes it is just an oblong piece of leather sewed on the belt, at the back where the blouse is fastened to coat. Sometimes patches of leather are sewed on the front where the belt fastens. While these may be used on a coat of any color, which red may be combined, it is particularly effective on blouses of black and white shepherd's checks.

Hats for Young Girls.

Many flounced hats are being worn by young girls, the materials being lace, flannel, chignon over lace. The forms these hats take are extremely diversified, some of them being tall inverted pot shapes, with seven or eight inch lace flounces draped from the top of the high crown and falling an inch or more below the brim all around. These hats are made in sizes larger in diameter than half an inch are used around the tops of the crowns of such lace hats; or a single band, which red may be combined, at the left side of the front—Harpier's Bazar.

Tip on Scalp Massage.

A skilled doctor of the scalp says she gets best results for the hair by working freely on the muscles that run down the neck at each side just under the ears. These connect closely with the blood vessels in the scalp and blood is forced up into healthy life. When electricity is used women who can stand little of it on the head can have it applied through tips of fingers on these neck muscles.

A BAD THING TO NEGLECT.

Don't neglect the kidneys when you notice lack of control over the secretions. Passages be- come frequent and scanty; urine is dis- colored and mod- erately appears. No kind of medicine for such troubles like Doan's Kidney Pills. They quickly remove kidney disorders.

A. Dasher, 241 N. Grant St., Worcester, O., says: "The doctors diagnosed my case as gravel, but my condition increased under their treatment, and I soon became too weak to stand alone. I had given up all hope of living more than a few weeks at the best. I was strongly urged to try Doan's Kidney Pills, and after twelve days' use, I passed two gravel stones. After that, I improved rapidly until cured." Remember the name—Doan's. For sale by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

What They Did With Them.
An American who spends much of his time in England tells of a cockney who went to a dealer in dogs and thus described what he wanted. "Hi wants a kind of dog about so 'igh an' so long. Hi's a kind of gr'ound, an' yet it ain't a gr'ound, because 'is 'tyle is shorter nor any of these are gr'ounds, an' 'is nose is shorter, an' 'e ain't so slim round the body. But still 'e's a kind of gr'ound. Do you keep such dogs?" "We do not," said the dog man. "We drown 'em."

Casey at the Bat.
This famous poem contained in the Coca-Cola Baseball Record Book for 1910, together with records, schedules for both leagues and other valuable baseball information compiled by authorizing. This interesting book sent by the Coca-Cola Co., of Atlanta, Ga., on receipt of 2c stamp for postage. Also copy of their booklet "The Truth About Coca-Cola" which tells all about this delicious beverage and why it is so pure, wholesome and refreshing. Are you ever hot—tired—thirsty? Drink Coca-Cola—it's cooling, relieves fatigue and quenches the thirst. At soda fountains and carbonated in bottles—Go everywhere.

DON'T LIKE DARK COLORS.
John—I heard you tell that man to never darker your door again. Try- ing to marry your daughter? Thomas—No; he's a painter and he painted my front door ebony instead of oak.

A COOL PROPOSITION
And a Sure One.

The Body Does Not Feel Heat Unpleasantly If It Has Proper Food—

Grape-Nuts

People can live in a temperature which feels from ten to twenty degrees cooler than their neighbors enjoy, by regulating the diet.

The plan is to avoid meat entirely for breakfast; use a goodly allowance of fruit, either fresh or cooked. Then follow with a saucer containing about four heaping teaspoonfuls of Grape-Nuts treated with a little rich cream. Add to this about two slices of crisp toast with a meager amount of butter, and one cup of well-made Postum.

By this selection of food the bodily energy is preserved, while the hot, carbonaceous foods have been left out. The result is a very marked difference in the temperature of the body, and to the comfortable condition is added the certainty of ease and perfect digestion. For the food being partially digested is quickly assimilated by the digestive machinery.

Experience and experiment in food, and its application to the human body has brought out these facts. They can be made use of and add materially to the comfort of the user.

HON. BEN JOHNSON.

To Our Subscribers.

As this is a very dull time in the printing business, we wish to ask of the subscribers to the Sun who have been receiving the paper for the past one or two years, and have not paid for same, to please call and settle or send check to us by mail, at once. There are very dull times with us, and after giving you one and two years to pay such small accounts, we hope to hear from those owing such small amounts at once, as we believe no man will find it hard to "dig up" a dollar or two to pay for his home paper on such liberal terms. Look at the label on your paper and if you have not paid for a year or two, come in and settle with us.

IN THE INTEREST OF GOOD ROADS

We are publishing this week an advertisement from the County Road Supervisor asking for bids for work on certain sections of turnpike in this county, in order that contracts may be made for the work necessary to be done on the roads and for which money has been appropriated by the Fiscal Court. The law requires only one advertisement to be made but as all the sections have not been contracted for, and as the officials are very anxious to have the work completed, they inserted this supplementary advertisement with the hope that the citizens of the county, realizing the miserable condition of the pikes, will interest themselves and co-operate with them in improving the condition of our highways.

It is needless to say that the roads of this county are in a most deplorable condition. This is due partly to the fact that there is not enough money available to put them in condition, and partly because all the money that is appropriated is not used. The latter difficulty can be obviated by the people contracting to work the pikes. A county road

overseer can compel the people on his road to work, but a County Supervisor cannot and should not receive all the blame for the lack of work on the pikes.

By all means let the roads be improved, to the extent that the money appropriated will improve them if expended, and let the people see that this is done. If something is not done in a short time many miles of pike in this county will be practically impassable.

Death of Mrs. Gray.

Mrs. Sarah Gray, a former resident of this county, died near Woodlawn yesterday morning of the infirmities incident to advanced age, she having been eighty-one years old, lacking one day, at the time of her death. The deceased was an estimable and well-beloved woman and had many friends in this and Nelson counties who will mourn her death.

Before her marriage Mrs. Gray was a Hardesty and is survived by her brother, T. Hardesty, and sister, Mrs. Lucy Sale. She was the mother of Messrs. James and Frank Gray.

Funeral services were held at Pleasant Grove this morning at 11 o'clock, Rev. W. A. Wolfe conducting the obsequies.

Unfortunate Accident.

J. H. Hays was the victim of a serious accident near Williamsburg recently, while moving his thrasher. In some manner his hand and part of his arm were caught in the fly wheel of the machine and he was so badly extricated that his arm had been broken about four inches above the wrist, while his wrist was also thrown out of joint. Mr. Hays was attended by Drs. Hyatt, Thompson and Yates, who set the arm and dressed the injuries, and he is reported to be doing well.

The School of Music.

Persons desiring a full course in Vocal and Instrumental or Public School music, will enjoy unexcelled opportunities in the Western Normal. Write for special information. Address H. H. Cherry, Bowling Green, Ky.

FENWICK.

Mr. and Mrs. J. E. Harmon attended church at Mackville Sunday. John Irvine bought a horse from Irvin Thompson for \$250.

Messrs. Shannon Thompson and Harry James were at Frather's Creek on business Sunday.

Stanley Rogers and Irvine Thompson called on the Misses Hollenase, in Louisville, Sunday.

Dick Horn and family, John Gillespie and daughter, Susie, and Hattie Bowles dined at the home of Butler Shewmaker Sunday.

Miss Sadie Fenwick is the pleasant out of Grace Arnold this week. Misses Hattie Bowles, Gladys and Susie Gillespie attended the Hyvrosburg Fair last week.

Hattie Bowles, Susie Gillespie and Fae Horn are visiting Mrs. O. B. Shewmaker this week.

The protracted meeting at the Baptist church is progressing nicely. Verna Rogers is on the sick list. Rumor reports a wedding soon in this village.

Messrs. W. H. and J. H. Russell have sold their farm, the old Twigle farm near Mt. Le Hill, to Valina Pinkston. The farm contains 77 acres and the price paid was \$50 per acre.

Messrs. J. C. McElroy and Wallace Mudd have purchased the W. A. Duval place in Nelson county, about two miles from Bardstown, on the Bloomfield pike. The farm consists of 380 acres and is one of the most valuable in Nelson county. While the consideration is not known it is thought to be about \$20,000.

Nad Hardin was again the leading figure in Judge Noe's court last Saturday when he was fined \$50 and costs for having whipped Lucy Clay, a colored woman in Hickertown. It was one of the usual fights which occur in Hocker in which considerable profanity as well as a good deal of scrapping was indulged in by both parties. Nad not having the money to pay his fine went to jail.

While moving his thrasher out the Lincoln Run pike last Thursday, Ed Cusick broke through a small bridge, about three miles from town. No one was injured in the accident and after several hours of work the thrasher was able to resume its journey. The bridge was demolished but has again been put in repair.

In the course of a few days extensive street improvements will be begun in Springfield. The Council will expend from \$800 to \$1,000 in improving the thoroughfares and will to night award the contract for the work. This will come as welcome news to the citizens as the streets are not in the best of condition, the mosquito-breeding ponds being especially offensive.

School Tax for the year of 1910 was due July 1. Five percent penalty will be added to all unpaid tax September 1.

Only Front Doors.

The City Council of Shelbyville has raised the saloon license from \$750 to \$1,000 a year and added to the restrictions that saloons shall have only one entrance and that in front. The handy "side door" and back entrances have been prohibited. There are now five saloons in Shelbyville and a sixth has made application for license.

President Helps Orphans.

Hundreds of orphans have been helped by the president of the Industrial and Orphan's Home at Macon, Ga., who writes: "We have used Electric Bitters in this institution for nine years. It has proved a most excellent medicine for Stomach, Liver and Kidney troubles. We regard it as one of the best family medicines on earth." It invigorates all vital organs, purifies the blood, aids digestion, creates appetite. To strengthen and build up pale, weak children or run down people it has no equal. Best for female complaints. Only 50c at Haydon & Robertson's.

Advertising for Road Work

I, the undersigned, with the consent and by the authority of B. L. Litsey, County Judge, being anxious that all the money appropriated by the Washington County Fiscal Court at the April term be expended on the turnpikes of the county, call especial attention to the following sections not yet under contract:

Part of Sec. 32. From Springfield to Pleasant Run, on Springfield and Perryville pike

Balance of Sec. 40. From Pleasant Run to Dr. Hatchett's gate, on same pike.

Sec. 46. Barboursville pike, from Pleasant Run Bridge to Marion county line.

Sections 47 and 29. The Mackville and Texas pike.

Sections 48 and 26. Springfield and Mackville pike, 4 miles.

Sections 50 and 51. Balance of Springfield and Williamsburg pike.

Sections 57 and 58. Balance of the Lincoln Run pike.

Section 55. From the bridge East of M. D. Reed to the Bloomfield pike.

Section 64 (Two). From Cecilville to Robt McIntire.

Sections 56 and 8. On the Waiton's lick pike from Sales Ford to Pollin.

Section 4. On the Bloomfield pike from the Magisterial district line to the bridge.

Sec. 5. Booker pike.

Sec. 72. Tick Creek road.

Sec. 73. Mays' Creek road.

I will contract with any responsible party or parties, who are willing to comply with specifications and will so contract. All work must be completed by Nov. 1, 1910. All bids to work these sections should be given me at once. All to whom promises of contracts have been given must come to see me at once and sign the contracts.

The Editor's Reply.

A preacher said: "You editors dare not tell the truth, your newspapers would fail." The editor replied: "You are right; and the minister who will at all times tell the truth about his members, living or dead, will not occupy the pulpit more than one Sunday, and he will find it necessary to leave town in a hurry. The press and the pulpit go together."

hand in hand with whitewash and kind words. Magnifying small virtues into large ones, the pulpit, press, and grave-stones are the great saint-making triumvirate. The great minister went away looking very thoughtful, while the editor turned to his work telling about the surpassing beauty of the bride, when, in fact, she was as ugly as a mud-fence.—Ex.

COMING TO DIXIE'S LAND

Big Migration to Southern States
Is Expected by the Federal
Bureau of Immigration.

According to the Bureau of Immigration in Washington, the Southern States may expect, during the coming fall and winter, a very heavy immigration. The prediction is based upon very strong tendencies, which set in a year or two ago, and which show no signs of abating.

The South has come to be looked upon as a country of opportunity. An old country, it has never been developed to the extent of its possibilities. It was making wonderful progress when the Civil war broke out, but that blight upon the land curbed its progress for many years. In fact, it has only been in recent years that the South has shown anything like the development to which it was entitled by nature.

All students of economy are agreed that the possibilities of the Southern States are practically unlimited. The climate, the natural resources, the topography of the country, all indicate a possible prosperity far in excess of that of most sections of the world. But instead of receiving new blood and new capital with which to develop the country, the South has witnessed thousands and tens of thousands of her sons and daughters leaving the country for other portions of the United States.

If it be true, as alleged by the Immigration Bureau, that the tide has now turned towards the South, we may expect, within the next few years, almost anything from that section of the country.—Ex.

THE ASCERTAINED POPULATION

Of the United States Is Now
in the Neighborhood of
Ninety Millions.

Washington, August 8.—It will be about the middle of October before the people of the United States learn their true number, as revealed by the official count of the Thirtieth Census. It is generally believed that the number will be about ninety millions and census officials are anxious to share in this general belief, although, officially, they know nothing about it. This belief is based on the fact that an increase slightly in excess of the thirteen million increase during the previous decade would bring the population in 1910 to the ninety million mark.

About 310 of the more than 18,000 clerks employed in the taking of the census are compiling population figures, while the others are working on other statistics. Contrary to the general opinion, all the counting of the people is done by hand, the tabulating machines being used only in classification as to race, sex and other conditions.

Enumeration figures will continue to be given out day by day for the next two months or more, while the sociological and industrial figures will come later. All enumerated figures are counted from three to four times and an investigation is ordered if there is any suggestion of an error.

Take All His Money.

Often all a man earns goes to doctors or for medicines, to cure a stomach, kidney or liver trouble that Dr. King's New Life Pills would quickly cure at slight cost. Best for dyspepsia, indigestion, biliousness, constipation, jaundice, malaria and Debility. 25c at Hayden & Robertson's.

Told in Lebanon.

"You say you are a reformer."
"Yes," replied the local boss, "of the deepest dye."
"But you were not always so."
"No. The reformers reformed our town last year and I want to reform it back again."

Saved From Awful Peril.

"I never felt so near my grave," writes Lewis Chamblin, of Manchester, Ohio, R. R. No. 3, "as when a frightful cough and lung trouble pulled me down to 115 pounds in spite of many remedies and the best doctor that I am alive to-day is due solely to Dr. King's New Discovery, which completely cured me. Now I weigh 180 pounds and can work hard. It also cured my four children of croup." Infants for Coughs and Colds: It is a certain remedy for the grippe, asthma, desperate lung trouble and all bronchial affections. 50c and 1.00 per bottle. Free. Guaranteed by Hayden & Robertson.

As Assignee of The Tatham Springs Company I will on
THURSDAY, AUG. 18, 1910
ABOUT THE HOUR OF 1:00 O'CLOCK, P. M.,

At the front door of the Tatham Springs, Washington County, Ky., sell at public auction all the property owned by said company, consisting of about seven acres of land on which is situated the celebrated Tatham Springs, a two-story Hotel building, Stables, Power House, Ice House, Bowling Alley, Servants' Houses and other necessary outbuildings.

The Hotel contains about thirty bed rooms all fronting on broad verandas, and are all furnished with hardwood furniture and bedding of all kinds. The parlors, office, dining room and kitchen are all fully equipped with all necessary furniture, suitable for the continuation of the business as a health and pleasure resort.

The hotel is situated on a Beautifully Shaded Island above high water overlooking Chaplin River, which affords excellent fishing, boating and bathing. The hotel is supplied with water from the spring by a first-class water system.

This property will be sold as a whole, and for the reason that the owners cannot give the business the attention it demands to maintain it as an attractive, first-class health and pleasure resort as it should and can be under proper and attentive management.

The property is situated on the Automobile line as established by the Automobile Clubs of Kentucky, and on the projected trolley line from Louisville to connect with the trolley system now maintained in Central Kentucky, and is accessible by other conveyances from all points in the State.

The merits of the Celebrated Tatham Water is known throughout Kentucky and in other States. The natural advantages of this place in not surpassed by any similar resort in Kentucky.

Mrs. S. E. Wornall is now in charge of the hotel and will take pleasure in showing the property to any persons who may be interested in the sale.

The property will be sold for one-fourth cash, the remainder payable in one, two and three years. The purchaser will be required to execute notes for the deferred payments bearing interest from the day of sale at the rate of six per centum per annum and payable annually with good security and containing a clause that in default of the payment of any note or installment of interest at maturity, then all of the notes to become due. If any purchaser desires further time for payment than as above indicated the extension can be arranged on satisfactory terms to be agreed on.

W. E. SELECMAN, Assignee of Tatham Springs Co.

This sale does not interfere with the management of the Hotel by Mrs. Wornall this year.

VALLEY HILL.

This week finds us confronted with another problem. Many of our farmers especially are asking ourselves the question as to whether or not we may attend the Washington county Fair next week? The writer's solution is: "Yes." Take a day off and enjoy an outing with your friends. Let everyone meet anybody at the Fair anyway. Yet, there are things to occur during that week that will, doubtless, cause some sorrow to someone. Even newly made friendships may end bitterly. Many of our associates will, no doubt, have passed beyond mortality ere the close of another year. But, anyway, don't fail to meet us at the Fair.

News items are in evidence everywhere this week, but Geo. J. A. Job chasing Tom J. W. Mr. and Mrs. M. Reed were called to the home of their daughter, Mrs. Benedict Jones, of Springfield, by the recent illness of their infant grandchild. An unusual incident occurred in our section last Friday, when there were three thrashing machines in a half mile radius, and only about the same number of stacks ready.

A. B. Walker had a valuable mare injured last week by being kicked. Ed Cusick had ill luck during his outing through the section last week with his thrashing outfit, having suffered two bad wrecks, necessitating an unusual delay each time.

Mr. and Mrs. Jerome Wohner, of Tatham Springs, were called to this place last week by the serious illness of the latter's father, Wm. Derringer.

Dr. Kelly, of Lebanon, was at this place last week on an urgent call to attend Wm. Derringer, Sr., who is suffering a dangerous attack of spinal affections.

Harry Grigsby recently purchased a quantity of corn from Dr. C. Kelly. Edward Derringer has been spending the summer in the lake regions of Michigan, was called to this place last week by the serious illness of his father.

Mrs. S. P. Derringer, of Springfield, was in our midst Saturday.

Dr. Shahan, of Maud, is attending Mary Brown, who is suffering from an attack of typhoid fever.

Many from this place attended church at New Hope last week.

Whitely & Co. received a bunch of stock at this station Wednesday.

Tobacco has fired up terribly in this section during the dry weather. Much damage being done as a result.
